SetInterval and SetTimeout

JS

setTimeout

setTimeout(function, milliseconds)

- Executes a function, after waiting a specified number of milliseconds.

```
function sayHi() {
 console.log('Hello');
}

setTimeout(sayHi, 1000);
```

output: Hello //once

setInterval(function, milliseconds)

- Same as setTimeout(), but repeats the execution of the function continuously.

```
function sayHi() {
 console.log('Hello');
}

setInterval(sayHi, 1000);
```

output: Hello will be repeated after ever 1000 milli sec
